IRONHACK - WEEK 5 PROJECT

# HEART DISEASE

Presented by Abdelaziz Mtimet, Anna Shin and Yanis Benneouala

IRONHACK - WEEK 5 PROJECT

# SUMMARY

Our dashboard covers the analysis process of a dataset about heart disease, through several metrics collected across a number of patients

## DATA TYPES

5 numerical, 9 categorical

## COLUMNS

Age, sex and a bunch of other health-related variables, such as blood pressure, and heart rate

## SIZE OF THE DATASET

303 rows, 14 columns

# CHALLENGES

- Get familiar with the medical terms
- The implementation of the dashboard itself
